

Mud Creek Natural Borders Dog Park **Pilot Project Rules and Regulations**

This natural borders dog park is being operated as a pilot project. Its use will be monitored for an appropriate period of time during which data will be collected regarding its use. This information will be used to evaluate the pilot natural borders dog park and determine whether or not adjustments and refinements need to be made or whether or not the natural borders dog park use should continue.

As a natural borders dog park, amenities, such as potable water supplies, trash receptacles and dog waste bag dispensers, are not provided. Accordingly, off-leash dog park users are expected to provide their own water and to take their trash and waste (including dog waste) off-site for disposal. As a pilot project site, use by off-leash dogs is subject to change based on how the site is used.

This park shall always be open for use by off-leash dogs from September 1 to March 1. The park shall generally be closed for use by off-leash dogs from March 2 through August 31 of any given year, unless posted otherwise, in order to ensure the safety of protected bird species which actively use the grounds of this site.

Accordingly, please note and observe the following rules, and other posted rules and regulations, when accessing and using this park for dogs which are off-leash:

1. This park is only open from dawn to dusk.
2. This park is currently **OPEN/CLOSED** for use by off-leash dogs.
3. Dogs and park patrons are not allowed in areas delineated by snowfencing.
4. Park users must provide their own potable water.
5. All waste created by park patrons must be removed from the site by park patrons and disposed of properly.
6. Dog owners must clean up their dog's waste, remove it from this park, transport it off premises and dispose of it properly.
7. The park may be closed to use by off-leash dogs if determined to be necessary at the discretion of the County Parks Department.
